

## Research projects

### Collaborator

1. *Laboratory for N-heterocyclic compounds with biologic active properties, photochemical and electrochemical study* –HETLAB, Impact no. 111/sept. 2007

2. *Laboratory for biochemistry of vegetable extracts like pharmaceutical and food remedies* - EXTRAVEG 07, IMPACT, 2007

3. *Improving of qualitative parameters at biological treatment of residual watters form food industry by avanced commands* – APEPUR, University „Dunarea de Jos” of Galati, CEEX module I, nr. 717/24.07.2006 (2006-2008)

4. *Promotion of romanian participation at european projects fp7 in the field of glucosuris imunogenetics and of regenerative medicine with beta pancreatics cells* – DIABTER, University „Dunarea de Jos” of Galati in partenership with Fundeni Hospital, CEEX, module III, (2006-2008)

5. *Regional centre for monitoring and research of environment quality* „Dunărea de Jos” University, Galați; CEEX IV no. 299/ 18.09.2006( 2006-2007 )

6. *Research on obtained food yellow colorants from natural sources, in agreement with modern principles of quality and safety food*, research project CNCSIS no. 450/2004-2005

7. *The conception and characterization of luminescent markers with possible use in medicine and their spectrophysical and biological properties*, research project CNCSIS, AT no 81, 2003-2005

8. **Brancuși RO/24**, research bilateral collaboration Romania (“Dunarea de Jos” University, Galati) – France (University „Joseph Fourier”, Grenoble) 2002-2004
