## Research projects

### Manager

1. *Research resulting in analytical systems for milk and dairy products traceability in order to comply with european quality and safety criteria*, Project PN II, Programme Idea, Code CNCSIS 517, theme 1, 2009-2011;

2. *Research regarding the biotechnological uses of secondary products from dairy industry by membrane process*, grant CNCSIS Td, code 35, 2001-2003;

### Team member

3. *Integrated centre for research and education - BIOALIMENT PLATFORM*, CNCSIS 62/2006, 2006-2008, [www.bioaliment.ugal.ro](http://www.bioaliment.ugal.ro);

4. *Functional foods: Researches on safety and quality increase through novel synbiotic products design, producing and marketing – CALISIN*, grant CEEEX, Module I, 2006-2008;

5. *Non-conventional processing for biochemical and microbiological stability of fruit juices*, grant CEEEX (ET), no. 1430, UEFISCSU, 2006-2008;

6. *Biotechnology to obtain nutraceutic products to regulation of metabolic functions – LIOSAN*, grant CEEEX, Module I, No 80/2006, 2006-2008;

7. *Research resulting in performance criteria to effective monitor and control the critical control points of the different ranges of food products*, grant CNCSIS, No. 515, 2006-2006;

8. *Research regarding the ripening of cheese*, Grant CNCSIS At, code 442, 2002-2004.
